Here are some things that you will need to consider prior to the construction of your bathroom/s.

- You will need to decide on the color you wish to use for your sink, toilet, shower, and tub. (examples: white, beige, ivory)
- You will need to pick out flooring and/or any tilework that you want completed
- Basic things you will need before the contractor shows up to begin work:
 - Toilet
 - Sink
 - Vanity (possible toilet topper cabinet)
 - Countertop
 - Shower, tub, whirlpool (what size whirlpool?)
 - Mirror
 - Light fixtures
 - Towel racks, toilet paper holders
 - Faucets for sinks and/or showers, tubs (It is very important on a remodel to be sure that you have the correct faucet and all of its components for the replacement shower head/faucet)
- Paint choice
- Flooring
